

1836 ORGANIC PINK GIN

RADERMACHER DISTILLERY

1836 ORGANIC PINK GIN

Two centuries of expertise and a rigorous selection of its raw materials go some way towards explaining the distillation secrets of the Radermacher distillery. Uncompromising on quality, it remains faithful to ancestral traditions and recipes while bowing to the demands of modern production, which come together to create distillates of exceptional purity.

Organic farming without the use of artificial pesticides, chemical fertilizers, irradiation, or genetically modified grain is ecology friendly for land and water.

For the Organic 1836 range only certified organic grain is used

1836 ORGANIC PINK GIN

By Radermacher Distillery

How it's made

The Radermacher distillery, found in Belgium, has been producing superb spirits for nearly 200 years.

This gin is 100% organic. It is based upon totally organic wheat distillate, and organic botanicals of elderberry, lemon peel, orange peel, bergamot, cardamom and juniper berries. The pink colour is gained from an infusion of cherries.

The final result is an attractive and flavour-some gin, with notes of bright fruit, citrus, red berries, piney juniper and earthy spice. Produces a gin and tonic with a distinctive blush colour.

DENOMINATION	CONT.	ALC. VOL %

Monday-Friday 10 am – 6 pm

COLOUR :

A light pink colour

AROMA :

A delicate and perfumed nose with an interesting combination of juniper berry and maraschino cherry

TASTE :

A fruity and floral attack, which gradually reveals a variety of spicy notes

CONSUMPTION :

The 1836 Organic Pink Gin can be served on its own and at room temperature so that the full power of its perfumes can be released. It's for sure also an ideal base for cocktails and long drinks.

STORAGE :

We suggest storing the bottles in a cool and dark place.
