Embrace the clouds

Base ingredient Blackberries & Amalfi Lemon
Organic grain alcohol

ABV 16 % VOL
750 ML

Country of Origin Belgium

EAN Code Bottle 5430000063760

EAN Code Box 5430000063753

Taste Albatross is a sweet and sour fruit liqueur based on fresh blackberries and Italy's biggest lemons. Extra complexity is given by grain alcohol. All naturally produced in Belgium, this premium liqueur was constructed by hundreds of people (with enquiries) who made a recipe that was accessible to a very large group of people with different tastes.

Branding The Albatross liqueur bottle is very attractable: Its golden look shows the unique character of the product and underlines its exclusive character. The bright red colour is cloudy which is because of the natural lemon particles. The heavy glass bottle and golden waves give us a splash of sea-water as final touch! The Albatross is the largest sea-bird on the planet, and as it embraces the clouds while flying, it says goodbye to the vast mainland, never to return.

Serving The possibilities are endless because of the sweet and sour combination: people enjoy it a lot with on ice and a slice of lemon. With bubbles or dry white wine as aperitif and in premium cocktails such as the 'Sweet hype' cocktail with gin and ginger ale.
